Hailiang Education Reports First Quarter Fiscal Year 2016 Financial Results

ZHUJI, China, Dec. 22, 2015 — Hailiang Education Group Inc. (Nasdaq: HLG) (“Hailiang Education” or the “Company”), a provider of private K-12 educational services in China, today announced its unaudited financial results for the first quarter ended September 30, 2015.

First Quarter Fiscal Year 2016 (“Q1 FY16”) Financial Highlights

- Revenue was RMB100.1 million (US\$15.7 million), representing an increase of 43.2% from RMB69.9 million in the same quarter last year.
- Gross loss was RMB7.7 million (US\$1.2 million), compared with gross profit of RMB1.0 million in the same quarter last year; gross margin was negative 7.7% in the first quarter fiscal year 2016, compared with positive 1.4% in the same quarter last year.
- Net loss was RMB41.6 million (US\$6.5 million), compared with net loss of RMB14.5 million in the same quarter last year. Basic and diluted loss per ADS were RMB0.09 (US\$0.01)¹, compared with RMB0.04 in the same quarter last year.

“I am pleased to report a promising start to the school year with revenue increasing 43.2% year-over-year for the first quarter of fiscal year 2016,” commented Mr. Ming Wang, Chairman and Chief Executive Officer of Hailiang Education. “Enrollment and tuition fees for the 2015/2016 school year were both up, demonstrating the high-quality education we have provided and the importance Chinese parents place in education. However, due to a number of one-off expenses including the move to the new campus and IPO related fees, we incurred a loss for the quarter. We will continue our ongoing strategic expansion and look forward to increasing shareholder value over the long-term.”

Financial Results for First Quarter Fiscal Year 2016

The Company generally records a lower level of revenue from basic educational programs and international programs in the first quarter of a fiscal year compared to the other quarters of a fiscal year, due to the two-month summer vacation in July and August. However, during such periods, Hailiang Education continues to incur fixed costs and operating expenses associated with its operations. As a result, revenue, gross profit and net profit are generally lower during the first quarter of a fiscal year and the Company’s results of operations during such period are not directly comparable to other periods and are not indicative of future periods.

Revenue

Revenue was RMB100.1 million (US\$15.7 million), an increase of 43.2% from RMB69.9 million in the same quarter last year and a decrease of 40.7% from RMB168.7 million in the previous quarter. The year-over-year increase was due to an increase in the number of students enrolled and associated tuition fees. The sequential decrease resulted from the fact that no regular school year tuition revenue was recognized for the two-month summer vacation that extended from July to August 2015. The decrease in tuition revenue was partly offset by the revenue derived from summer school which the Company offers during the summer vacation.

¹ “ADS” refers to any of our American depository shares, each representing 16 ordinary shares, par value US\$0.0001 per share.

Cost of Revenue

Cost of revenue was RMB107.7 million (US\$17.0 million), an increase of 56.3% from RMB68.9 million in the same quarter last year and an increase of 9.8% from RMB98.1 million in the previous quarter. The sequential increase was primarily due to the increased depreciation of leasehold improvement related to the Company's new campus, Hailiang Educational Park, and the increase in student-related costs. The year-over-year increase was primarily due to increases in student-related costs and employee compensation.

Gross (loss) profit and Gross Margin

Gross loss was RMB7.7 million (US\$1.2 million), compared with gross profit of RMB1.0 million in the same quarter last year and gross profit of RMB70.5 million in the previous quarter. Gross margin was negative 7.7%, compared with positive 1.4% in the same quarter last year and positive 41.8% in the previous quarter.

Operating Expenses

Our operating expenses consist of selling expenses, administrative expenses and impairment loss of property and equipment. Operating expenses were RMB36.2 million (US\$5.7 million), an increase of 109.4% from RMB17.3 million in the same quarter last year and an increase of 124.5% from RMB16.1 million in the previous quarter.

Selling expenses were RMB12.4 million (US\$1.9 million), an increase of 3.7% from RMB11.9 million in the same quarter last year and an increase of 518.8% from RMB2.0 million in the previous quarter. The increases were primarily due to the increase in recruiting and advertising costs associated with the start of the new school year.

Administrative expenses were RMB8.3 million (US\$1.3 million), an increase of 56.0% from RMB5.3 million in the same quarter last year and a decrease of 40.8% from RMB14.1 million in the previous quarter. The year-over-year increase was primarily due to increases in costs associated with the Company's IPO and labor costs. The sequential decrease was primarily due to higher costs associated with the Company's IPO during the fourth quarter of fiscal year 2015.

Impairment loss of property and equipment was RMB15.5 million (US\$2.4 million), compared with nil in the same quarter last year and nil in the previous quarter. All students of Zhuji Hailiang Foreign Language School moved to the new campus in September 2015, and accordingly, the Company terminated the lease agreement of the old campus of Zhuji Hailiang Foreign Language School. The carrying amount of the leasehold improvement and equipment in the old campus of Zhuji Hailiang Foreign Language School amounted to RMB15.5 million. As the old campus will not be used in the future, the Company recorded a full impairment loss in the current period.

**Net Finance Income**

Net finance income was RMB2.3 million (US\$0.4 million), an increase of 24.2% from RMB1.8 million in the same quarter last year and an increase of 85.8% from RMB1.2 million in the previous quarter. The increase in net finance income was primarily due to interest income derived from tuition fees collected at the beginning of the school year in September 2015.

Net (Loss) Profit

Net loss was RMB41.6 million (US\$6.5 million), compared with net loss of RMB14.5 million in the same quarter last year and net profit of RMB55.3 million in the previous quarter.

Basic and Diluted (Losses) Earnings per ADS

Basic and diluted losses per ADS were RMB0.09 (US\$0.01), compared with basic and diluted losses per ADS of RMB0.04 in the same quarter last year. The basic and diluted earnings per ADS in the previous quarter were RMB0.15.

Cash and Cash Equivalents

As of September 30, 2015, the Company had cash and cash equivalents of RMB637.4 million (US\$100.3 million), compared with RMB233.4 million as of June 30, 2015.

Recent Developments

On November 18, 2015, the Company entered into the lease agreement with Zhejiang Hailiang Education Group Ltd. regarding Hailiang Educational Park. The term of the lease is for twenty years and the rental fee in the first year is RMB20.0 million (US\$3.1 million) and is subject to a 5% increase in the next three years. The rental fee commencing the fifth year is subject to further negotiation between the Company and Zhejiang Hailiang Education Group Ltd.

On December 7, 2015, the Company entered into an agreement to terminate the property lease agreement between Zhuji Hailiang Foreign Language School and Zhejiang Hailiang Education Group Ltd. dated June 30, 2009, according to which the lease of the old campus occupied by Zhuji Hailiang Foreign Language School is terminated on September 1, 2015.
